

Thinking of opening a Simple Business Checking account with SFCU?

We believe you will find our Simple Business Checking account a low cost / full service option.

Here are some things you need to know:

- We currently offer our Simple Business Checking account to sole proprietorships and community service organizations.
- Simple Business Checking does not pay dividends (interest).
- Simple Business Checking follows the same fee schedule as a personal checking account. There are no per transaction fees. There is a \$3.00 monthly fee which we waive if you enroll in e-Statements.
- Simple Business Checking allows you to add authorized signers to your account.
- Simple Business Checking offers a SFCU Visa Debit card.

When you visit our office to open your account, please be sure to have the authorized signers with you. We will need primary identification, such as a driver's license, for you and the authorized signers.

We will also need information for you and your authorized signers, such as physical address, phone number, social security number, etc.

A sole proprietorship may use either the owner's social security number or an EIN. Community Service organizations must provide an EIN.

Lastly we will ask you a few questions regarding your business and the type of transactions we can expect to see. We are required to do this per Federal Regulations.

Please note we do not offer ACH origination or cash orders at this time.

Still undecided? Call us at 508-678-2851, option 4 or send us an email at Info@somersetfcu.com.

**Stop paying those high banking fees and keep more of your hard earned money.
